Announcing a new hearing healthcare choice!

When people first make the choice to buy hearing aids, the focus is usually cost because that's what is understood. How much hearing aids will improve their lives is unknown. Selecting the technology, features, and styles which will best meet their needs now and in the future is difficult.

Once the joys of hearing have been experienced, they often wish they had made a different choice. They'd like to change their hearing aids, but they don't want to start over again. We have a new option which addresses these concerns – the **HearPlan® Upgrade Program**.

If you wear hearing aids, you can now **exchange your hearing aids for better technology** at a significant savings **no matter where they were purchased!** This is your chance to experience the latest technology including:

- Binaural Fusion which creates a more natural sound by using wireless ear-to-ear communication for true processing by both ears
- BestSound Technology which features up to 48 processing channels and built-in tinnitus therapy features
- Speech Variable Processing for unmatched speech clarity in background noise
- Wireless capabilities for easy connection to your phone, TV, and other devices, including **new smartphone-compatible hearing aids**
- Unlocked software (unlike warehouses or national chains) so that you can choose your provider
- Latest styles, including receiver-in-the-canal and micro completely-in-the-canal models

It's time for you to upgrade and start enjoying the benefits of the **newest technology starting at just \$1099.00**. We're offering a **30-day trial with a 100% money-back guarantee**. Call us now at **1-800-500-8243** to schedule your **free, no-obligation consultation** to learn more. Hurry, this offer expires 4/18/2014.
